

Diesis 500 Vending Machine

Diesis 500 Vending Machine

Diesis is the most innovative solution currently available for the dispensing cold drinks in both cans and bottles. Its contemporary, stylish design and its intuitive interface guarantee a user-friendly experience. The compact dimensions have not affected the product capacity.

Diesis uses the new N&W 16-bit electronic platform with a 4 Mega flash memory, master/slave connection and a graphical display with 20 characters for 10 lines.

Highly advances technologies

- Possibility to dispense cold drinks in all can and bottle formats
- New compact cooling unit
- Internal layout with fixed columns with optimized capacity

Design & user interface

- Attractive and high impact aesthetics
- Wide photographic panel
- Userfriendly metallic interface with black polycarbonate inserts
- New ergonomic dispensing compartment

Electronics and maintenance

- 16 bit electronics with 4 mb flash eeprom
- Large graphical display with 20 characters for 10 lines
- Master/slave connection with other Necta models
- Collection of statistics in EVA DTS Standard
- Removable delivery bin when moving the machine
