

CV600HXL Horizontal Waste Compactor

CV600HXL Horizontal Waste Compactor

The CV600HXL can process up to 3 bales per hour. It has a generous hopper opening (more than 35% larger than CV600H) which allows easier feeding of large volumes of waste with a loading shovel.

It has a 60 tonne compaction force which gives higher density bales than the above machines. This baler also has a five wire horizontal tying system which is suitable for most materials.

Benefits

- Allows continuous material feeding
- Reduced cycle time
- Operator can continuously feed machine, saving on down time
- Operator is informed when the bale is ready to be tied
- Generous standard hopper size, allows easier feeding of large volumes of material with loading shovel
- Machine can be installed indoors or outdoors
- High density bales
- Semi automatic operation
- Ensures high safety standards
- Ensures long life of machine

Features

- IP55 rating
- CE Marked
- 3m wide hopper
- Robust construction
- Simple operating controls
- Magic eye start-up
- Automatic cut out when bale is full
- 60 tonnes compaction force

Optional Extras

- Bale discharged beacon/ jam beacon/ bale full beacon
- 1100L trunion binlift with safety cage
- Bale eject counter cog
- Extra pressure setting

Wide hopper – easy loading

Easy wire tying system

Technical Specification

Model	Motor	Weight	Bale Height	Hopper Options (wide)	Dimensions (H x W x L)
CV600HXL	15W/42secs	6500kg	1100 (mm)	Flared Hopper: 3m	2100 x 1410 x 7140 (mm)
