

CV850H Horizontal Waste Compactor

CV850H Horizontal Waste Compactor

The CV850H is our largest baler and can bale over 3 tonne per hour. It is a semi-automatic horizontal baler which can produce a bale in excess of one tonne. It has a bigger feed opening (2m x 1m) allowing larger material to be easily fed in.

It has a 60 tonne compaction force and an aggressive ram head, providing efficient shearing. It also has magic eye start up, automatic cut off when bale is full, horizontal tie and adjustable bale length with 6 different settings.

Benefits

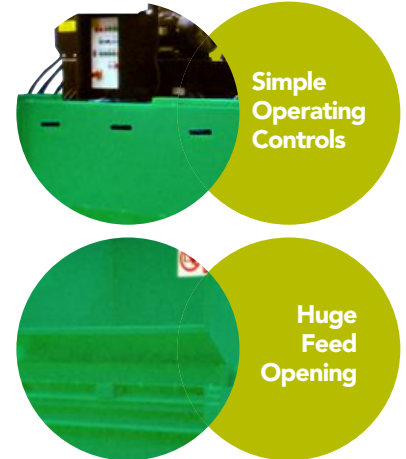

- Allows easy cutting of material
- Reduced cycle time
- Operator can continuously feed machine, saving on down time
- Operator is informed when the bale is ready to be tied
- Can adjust the bale size to maximise the amount of material in a container
- Semi automatic operation
- Save time tying the bale. Reduce the amount of wire used Save time loading containers
- Ensures long life of machine
- Allows machine to be installed indoors or outdoors
- Ensures high safety standards

Features

- 15kW motor
- Magic eye start-up
- Automatic cut out when bale is full
- Variable bale length
- Simple operating controls
- Large Bale (up to 1 tonne cardboard)

Optional Extras

- Bale eject counter cog
- Retention claws
- Door damper ram (recommended for retention claws)
- Vandal proof cover for control panel
- Satellite control panel
- 1100L trunion binlift with safety cage

Technical Specification

Model	Motor	Weight	Bale Height	Hopper (Hand Fed)	Dimensions (H x W x L)
CV850H	15kW/62sec	7000kg	1090 (mm)	Flared hopper 3m wide	2070 x 1750 x 7590 (mm)
