

# CV850HFE.PC Horizontal Waste Compactor

# CV850HFE.PC Horizontal Waste Compactor

The CV850HFE.PC has a throughput of up to 3 tonnes per hour. It is a full eject baler with a portcullis door for simpler operation.

The CV850HFE.PC produces large bales (up to 800kg bales of cardboard). It has a very large hopper opening which allows easier feeding of large volumes of waste with a loading shovel. Upgrade to a 22kw motor is available which allows faster cycle times.

#### Benefits

- Allows easy cutting of material
- Reduced cycle time
- Fast bale discharge. Change materials quickly and prevent cross contamination
- Operator can continuously feed machine, saving on down time
- Can adjust the bale size to maximise the amount of material in a container
- IP55 rating
- CE marked

#### Features

- Shear blade on top of press plate
- 15kW motor
- Full Bale Eject System

- Magic eye start-up
- Automatic cut out when bale is full

#### Optional Extras

- 22kW motor
- Retention claws
- Vandal proof cover for control panel
- Extra pressure setting
- Interlocked access door for hopper
- Satellite control panel
- Bale discharged beacon/ jam beacon/ bale full beacon
- Large Bale (up to 800kg cardboard)
- Powerpack cover
- 1100L trunion binlift with safety cage

Bale full indicator

Simple operating controls

#### Technical Specification

Model	Motor	Weight	Bale Height	Hopper (Hand Fed)	Dimensions (H x W x L)
CV850HFE.PC	15kW/ 62 sec	7500kg	1090 (mm)	Flared hopper 2.7m wide	2090 x 1680 x 8260 (mm)
