

# Rio Water Cooler

# Rio Water Cooler

The Rio has been thoroughly tried-and-tested, and is the cooler of choice for those who use water bottles. Easily installed in offices, schools and public spaces.

Easy to use and simple to maintain, the Rio is the best provision solution for bottled water.

Chevington Services longstanding experience in the bottled-water market means that this classic cooler has been refined to perfection.

#### Performance

- Dispenses still, sparkling, chilled and hot water
- On Rio C models, the stainless-steel coil gives direct chill rapidly and hygienically, avoiding build-ups of water
- On RI models, the easily removable reservoir is made from FDA-approved food-grade high-density polyethylene

#### Additional features

- Available in various colour combinations.
- Silent, professional cold-carbonation system

The silent, professional cold-carbonation system provides large quantities of sparkling water (WG models).

Rio				Lt/h	Usg/h	Dimensions cm (WxDxH)
Rio 23 A	•	•		22	5,8	32.5 x 34 x 103
Rio 23 H		•		23	5,8 2,1	32.5 x 34 x 103
Rio 23 WG		•	•	24	5,8	32.5 x 34 x 103
